(<https://www.isinucleare.it>)

ISIN organized, for Friday 18 February, the seminar "The evolution of the IAEA Regulations for the safe transport of radioactive material. National and International Regulations and experiences related to their application".

The event will update about the innovations introduced by the IAEA SSR-6 Regulations (Rev. 1) and to involve the operators interested in highlighting any critical issues based on operational experience and possibly preparing proposals for changes to the IAEA Regulations for transport in safety of radioactive material SSR-6 (Rev. 1) ed. 2018, to be submitted to the IAEA Secretariat.

The ISIN webinar will be broadcast in live streaming on the ISIN Youtube channel [ISIN Press](#) [1].

The program is available [here](#) [2].
