STRIMS, a new reserved area for consultation by Public Administrations

Next 11 September, dedicated information webinar

The ISIN communicates that it has proceeded to create a new reserved area to which the PAs will have access to consult the STRIMS information.

Thanks to this new functionality of the STRIMS portal, the consultation of information for institutional purposes by the State Administrations is guaranteed. The consultation will be made operational in relation to the territorial jurisdiction of each administration (national, regional, provincial), to the type of information (detailed data, aggregate data) as well as in relation to the scope of visibility. The new reserved area will be accessible from the STRIMS portal (<https://strims.isinucleare.it> [1]) by clicking on the specific section "Area reserved for administrations for consultation".

To present the new functions and access methods for consultation to the public administrations, ISIN has organized an information webinar, which will be held on 11 September from 15:00 to 17:00. The administrations concerned are invited to register by connecting to the following link:
https://ecocerved-it.zoom.us/webinar/register/WN_y0kLT13zS22BIpHzL_-7DQ [2]

Access to the area reserved for consultation of STRIMS will be made available in the days immediately following that date.
